

Now Offering QuietNite Laser Therapy

What is QuietNite Laser Therapy?

DEKA QuietNite provides all the great medicinal benefits of CO₂ energy while quickly improving your quality of sleep in as little as ten minutes. This treatment is ideal for patients who wish to:

- Improve energy, mental clarity, and focus with a better night's rest
- Improve Sleep disorders
- Improve a Compromised Airway

How long do DEKA QuietNite results last?

Ease of use for the treatment means that DEKA QuietNite can be used quickly and frequently. For patients commonly experiencing snoring symptoms, treatment from DEKA QuietNite can be used annually, even during regular cleanings and hygiene visits.

Benefits for Patients

Patients who have Laser Therapy experience:

- No downtime and no bleeding
- Results in as little as five days
- Quality of life improves
